THOMPSON STREET CAPITAL PARTNERS, CHARTERHOUSE GROUP, AND CEQUEL III EXPAND DATA CENTER PLATFORM WITH THE ACQUISITION OF PERIMETER TECHNOLOGY

ST. LOUIS, MO (Nov. 1, 2011) Thompson Street Capital Partners (TSCP) and Charterhouse Group, Inc. (Charterhouse), have announced their acquisition of Perimeter Technology, LLC (Perimeter) of Oklahoma City, in partnership with Cequel III, a St. Louis-based management and investment firm. Perimeter is the leading provider of data center colocation and managed hosting services in the Oklahoma region, with facilities in Oklahoma City and Tulsa.

Perimeter will become a part of Cequel Data Centers, LLC (Cequel). Combined with Colo4, a leading provider of carrier-neutral colocation data center services in the Dallas area, Cequel will have three state-of-the-art data center facilities with more than 70,000 square feet of raised floor data center space serving the contiguous Texas and Oklahoma regions.

“We’re extremely excited about the Perimeter addition to our data center platform,” said Bob Dunn, Managing Director, TSCP. “Our partnership with Charterhouse and Cequel III has been highly successful and we continue to believe the data center industry offers multiple avenues for both organic and acquisition-driven growth.”

Charterhouse Managing Director Bill Landuyt commented, “This expansion of our initial Colo4 acquisition platform highlights our enthusiasm for the data center industry and marks our sixth investment partnership with the Cequel III team and second with Thompson Street. We look forward to continuing this successful collaboration in employing our time-tested buy-and-build strategy within this rapidly growing business services segment.”

Added Paul Estes, President and CEO of Cequel, “The Perimeter acquisition represents a continuation of our original plan for growing our data center platform. Combined, Colo4 and Perimeter will create a strong regional provider of data center services in Texas and Oklahoma.”
